We're Building a Village for You to Call Home. Samaritan Summit Village

Finding the right solution for your own or your loved one's elder care needs is important. You want just the right mix of services and support to preserve independence, maintain safety and enhance quality of life.

The Samaritan Summit Village is being built with this in mind. Our goal is to provide not only the best possible care, but also the most appropriate care for the resident's unique medical, physical and emotional needs ... all within a cozy, home-like setting.

Samaritan Summit Village's continuum of care will include:

Assisted Living: providing long-term residential care in a community-integrated setting that resembles independent housing units. The program provides for room, board, housekeeping, personal care and supervision. The program may be an alternative to nursing home care.

Enhanced Assisted Living Residence (EALR): providing a more advanced level of care to serve people who wish to remain in their residence as they begin to have age related difficulties.

Skilled Nursing Facility (SNF): providing 24-hour nursing care as well as other healthcare services in a home-like environment.

There are specific criteria for each level of care, and the Samaritan staff can help you determine the best fit for you or your loved one.

The Samaritan Summit Village is scheduled to be complete in Spring 2013. The facility will have 120 private Assisted Living rooms with kitchenettes, restrooms, and European showers. The Skilled Nursing wing will have 168 private and shared-private rooms with restrooms and European showers.

Services provided will include:

- Personal Care
- Physician Services
- Therapy Services
- Residential-style Dining
- Flexible Dining
- Activities Program
- Beauty Shop
- Bistro
- Laboratory Testing
- Social Services
- Pastoral Care
- Gift Shop
