Clifton-Fine Hospital Visitation Effective June 8th, 2022

In-Patient Visitation

- **Vaccination Status/Negative COVID Test:**
 - Visitors must be fully vaccinated against COVID-19 (2 doses of Pfizer or Moderna, or 1 dose of J&J) **OR** provide proof of a negative COVID-19 test within 72 hours prior to their visit.
 - Vaccinated visitors must show official proof of vaccination such as an Excelsior Pass, vaccination card, or equivalent proof upon request.
 - Unvaccinated visitors must provide proof of a negative lab test performed 72 hours prior to their visit **OR** must perform their own home test upon arrival to the facility **OR** have a test performed at the facility prior to visiting.

Emergency Department

- There is no visitation inside the Emergency Department.
- One parent/adult caregiver is permitted to accompany minors under the age of 18.
- One Support person may wait in the ED waiting area.

Out-Patient Services (Clinic, Laboratory, Radiology, Rehab Services (PT/OT))

- One parent/adult caregiver is permitted to accompany patients under the age of 18.
- Support Persons/Caregiver will be permitted to accompany the patient to their appointment if the clinical team determines their presence is necessary to the care of the patient.

Visitation Guidelines

- All visitors must be 18 year of age or older
- All Visitors are required to be screened for COVID-19 upon arrival
- All Visitors are expected to wear a MASK at all times
- Visitors will adhere to the CFH ZERO TOLERANCE policy for bullying, harassment and/or abuse of hospital staff regarding these guidelines.

Best regards,

Dierdra Sorrell, CEO
